I was very concerned about my bedroom design. My husband is a designer and we have travelled around the world. We have purchased a lot of precious fabrics and... we could not put the idea together in a way that both of us would be happy with. Patricia came and did such an incredible job with the arrangement that we loved it to the point of tears. It was a very special moment! Deep Thanks also to the lovely lady who Patricia referred for the draperies and conforters. J & H (residential customers)
